

Your **TRUSTED PARTNER**

The Steel Detailing
and Estimating Experts

US TESLA
— STEEL —

Let's bring your project to life, together.

Welcome to US Tesla Steel

**your go-to source for steel detailing services
in the United States**

Our team of expert detailers and engineers is dedicated to delivering superior quality and precision in every project we undertake.

ESTIMATING

With our expertise, we can efficiently create models that include all elements listed in the Scope of Work for your project. Our reports provide you with the information you need to make informed decisions and manage your project costs effectively

DETAILING

During this phase, we prepare a detailed model that includes all connections and drawings required for your project, such as Erection drawings, Assembly Drawings, Transmittal for Approvals, Package for Fabrication, Reports, NC files and much more.

WHO WE ARE

We utilize cutting-edge technology and software, including BIM technology and Tekla Structures, to create detailed models and drawings that meet the unique needs of each client. From estimating to detailing, we provide comprehensive solutions to ensure your project is completed on time and within budget.

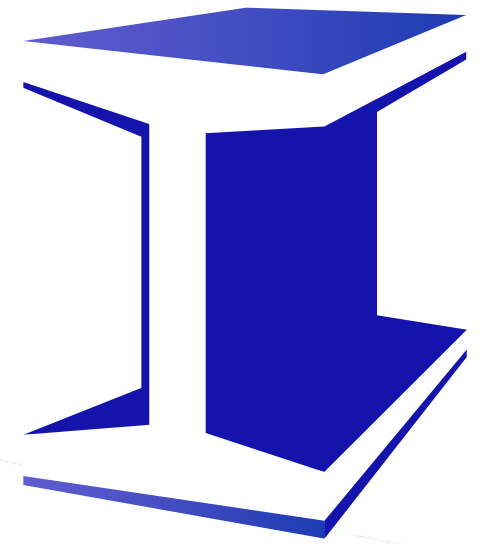

Our commitment to excellence extends beyond our work in steel detailing. We are also dedicated to providing outstanding customer service and building lasting relationships with our clients.
